***Election/Restrictions***

Applicant's election without traverse of Group I Claims 1-7 in the reply filed on 3-6-2002 is acknowledged.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 2 recites the limitation "the hand of the user" in lines 4-5. There is insufficient antecedent basis for these limitations in the claim.

Claims 2-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 4-5 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Louison(U.S.Pat.5,462,018).

*Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2 and 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Louison over Ho(U.S.Pat. 5,435,327). Louison discloses a brushing device for grooming that shows many of the features of the claimed invention but does not explicitly show exhaust holes as claimed. Ho discloses a grooming device that shows exhaust holes. It would have been obvious to one of ordinary skill in the art at the time of the claimed invention to use exhaust as taught by Ho with the device of Louison so as to blow either hot or cold air on to the comb.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Feldman, Nakagawa, Schepisi, Schillig, Vallis, and helbling are cited to show structure and methods similar to the claimed invention.
